

Virtual Power Plant for Interoperable and Smart isLANDS

Virtual Energy Communities (EC) Workshop

23-09-2021 10:00 CET [Zoom Link](#)

In this EC workshop, we will showcase the difference between the energy communities and energy cooperatives and examining software in this field. Moreover, Algowatt will present the software LIBRA CE and Samsø Energy Academy will testify their success story.

Also, the workshop intends to:

- Describe the activities related to energy communities that are being carried out in VPP4ISLANDS
- Present the steps to establish energy communities in Islands
