7TH INTERNATIONAL ENERGY COOPERATIVES CONFERENCE

Invitation

We, the Troya Environmental Association, are delighted to reach out to you to extend an invitation to the 7th International Energy Cooperatives Conference.

For the past 6 years, we have been organizing an annual conference series to bring together renewable energy cooperatives, relevant institutions, and authorities from Turkey and around the world. Our goal has been to strengthen energy cooperatives by creating a platform for knowledge sharing and collaboration. Each year, we have focused on different topics, inviting expert speakers and showcasing successful examples to engage cooperatives.

This year, on December 14th, we are organizing a 1 day- 7th International Energy Cooperatives Conference with the participation of different countries and institutions from our Horizon Europe project team, titled "Masterpiece." The conference will focus on the impact of European and international funds on energy cooperatives, and we believe that your expertise in this field would greatly contribute to our event.

We would be honored to have you share your experiences with us either in person or virtually.

Best Regards
Troya Team
