

Public VPP4IBox workshop

01.12.2023- 12:00 CET Time

Context and objectives:

In this public workshop, we will showcase the developed solution “VPP4IBox” and the associated services provided to the end-users.

The VPP4IBox delivers effective and appropriate technologies, three partners, Schneider Electric, Blockchain2050 and Cardiff University, are involved in the development and in the demonstration of this layer that is under testing in two leading islands (Formentera and Gökçeada).
